Key

--	No data have been reported for the group and indicator being evaluated.
NR	Not Reported - The indicator was not evaluated because the group size was below the minimum threshold number of 30 to achieve statistical reliability.
Met	The group met AYP for the indicator by meeting the AYP target with the current year data.
2-Year	The group did not meet AYP for the indicator with current year data, but met with a 2-year average of data.
Safe Harbor	The group met AYP for the indicator by meeting the requirements of Safe Harbor. Safe Harbor applies to the proficiency rate, graduation rate, and attendance rate indicators for each group.
Growth	The group did not meet AYP for the indicator with current year data, with a 2-year average of data, or by meeting the requirements of Safe Harbor but is on the path to proficiency using ODE's growth model projections.
2% Adjust	The IEP subgroup did not meet AYP for the indicator with current year, two-year combined, Safe Harbor, or growth results, but did meet AYP with the IEP 2% adjustment.
Not Met	The group did not meet AYP for the indicator with current year data, with a 2-year average of data, by meeting the requirements of Safe Harbor, or by showing projected growth to proficiency using ODE's growth model.
